2.2 Addition of Supported Devices

Embedded Target supports RL78 Family devices for Consumer/Industrial now. (Some RL78 devices with small size RAM are not supported. Contact to technical support for detail information.)

3. Updating Your Product

3.1 Download the [Installer/Updater] from the Web

Download the installer from the Embedded Target product page (the following URL). (Installer of Embedded Target will be available on product page from Oct, 2021.)

<https://www.renesas.com/software-tool/model-based-development-environment-consumerindustrial-embedded-target>

Uninstall old version of Embedded Target if it is necessary and install the program. For how to uninstall Embedded Target, refer to the installation guide attached to Embedded Target installer. If you have any questions, please contact our technical support.
